

LAVAPAVIMENTI

Liquid detergent, perfumed, for floors

FEATURES

Detergent with high concentration in active substances specifically for cleaning floors and surfaces that can be walked on in general.

It easily attacks the dirt deposited with the passage of people, thus favoring the separation from the porosity of the tiles, stoneware, marble, linoleum and parquet.

It doesn't contain corrosive substances, its aqueous solutions evaporate easily avoiding the subsequent rinsing step.

Free in the environment a pleasant and persistent floral fragrance.

LAVAPAVIMENTI is recommended for: hotels, motels, offices, reception areas, high-attendance offices, churches, museums, nursing homes, clinics, hospitals and for your own home.
